SITS e:Vision factsheet

NashTech.

Why NashTech

Skillset
We are experts in building online learning platforms for universities

Sector expertise
Our extensive experience in the higher education sector ensures solutions that are perfectly aligned with your institution's needs

Technical excellence
We partner with industry leaders (Microsoft Azure, AWS & Google cloud platform) to facilitate seamless cloud transitions for universities

Quality assurance
We are committed to delivering the highest quality work through a robust quality assurance process
Your SITS e:Vision partner

In today's digital landscape, a streamlined Student Information System (SIS) is no longer a luxury, it's a necessity. NashTech's SITS e:Vision expertise can be your key to unlocking a powerful and adaptable SIS solution. We understand the unique challenges faced by educational institutions and our team of SITS e:Vision specialists is dedicated to helping you leverage the full potential of the system to enhance student experiences, optimise administrative processes, and empower your institution for future growth.

How we help universities?

NashTech can provide valuable resources to help create and maintain e:Vision. We are able to mobilise teams efficiently and work to provide the best quality outcome. We work directly with educational institutions to understand the value needed and build requirements from the roadmap to then develop, test and deliver.

Our services

BOOSTING EFFICIENCY AND STREAMLINING PROCESSES

Automation: Automate routine tasks like admissions processing, course enrollment and financial aid management to free up staff time for higher-value activities

Data integration: Integrate e:Vision with other campus systems (e.g., Learning Management Systems, HR) to eliminate data silos and improve information flow

Workflow optimisation: Review and optimise existing workflows to identify bottlenecks and implement improvements for increased efficiency

ENHANCING THE STUDENT EXPERIENCE

Self-service portal: Develop a user-friendly self-service portal for students to access grades, transcripts, financial aid information and course materials

Mobile access: Enable students to access key e:Vision functionalities through a mobile app, promoting convenience and flexibility

Data-driven decision making: Utilise e:Vision data to personalise the student experience, identify at-risk students and tailor support services accordingly

IMPROVING REPORTING AND ANALYTICS

Customised reports: Develop custom reports and dashboards to gain deeper insights into student enrollment trends, program performance and resource allocation

Predictive analytics: Leverage predictive analytics to identify potential student success challenges and implement proactive support measures

Data visualisation: Present data in visually appealing formats (e.g., charts, graphs) for clear communication and informed decision-making
